

Presents the first relevant and comprehensive Geography dictionary available for all school students across Australia

HERE AT LAST!

# THE NEW GEOGRAPHY DICTIONARY

Covers Stages 4, 5 and 6 (Years 7-12)

Written by JEFF HARTE

Relevant to all high school students and teachers across Australia.

The first Australian dictionary to address geographic terminology that meets the needs of all Australian students

250 pages, A5 format with over 1500 entries, diagrams and photographs addressing key geographic terms and concepts associated with:

## LOCAL AND GLOBAL BIOPHYSICAL ENVIRONMENTS

atmosphere  
lithosphere  
hydrosphere  
biosphere

## AUSTRALIAN AND GLOBAL COMMUNITIES

population  
settlements & urban environments  
large cities  
tourism and more

from abrasion to quoquake to a zetaform beach - if your students are not familiar with these they need this dictionary.
