

# GEOGRAPHY BULLETIN

The  
Geography Teachers Association  
of New South Wales Inc.

**Volume 55 No4 2023**

**IN THIS ISSUE:**

A continental transect –  
Canada from east to west

Response from the Geography Teachers'  
Association of NSW & ACT to the '2023 Have  
your say' consultation for Geography Years 7–10

The Anthropocene:  
A New Epoch in the Earth's History

2023 Geography's Big Week Out

Celebrating Geography Excellence:  
A Remarkable Year of Achievements

A large, vertical photograph of a mountain landscape at sunset or sunrise. The sky is filled with dark, dramatic clouds, with a bright orange and yellow glow from the sun breaking through. A large, rugged mountain peak is the central focus, its slopes covered in snow and partially shrouded in mist. In the foreground, a body of water reflects the sky and the mountain, with some reeds or grasses visible in the lower left corner. The overall mood is serene and majestic.

**Canada from  
east to west**

*The Geography Bulletin is a quarterly journal of The Geography Teachers' Association of NSW & ACT Inc. The 'Bulletin' embraces those natural and human phenomena which fashion the character of the Earth's surface. In addition to this it sees Geography as incorporating 'issues' which confront the discipline and its students. The Geography Bulletin is designed to serve teachers and students of Geography. The journal has a specific role in providing material to help meet the requirements of the Geography syllabuses. As an evolving journal the Geography Bulletin attempts to satisfy the requirements of a broad readership and in so doing improve its service to teachers. Those individuals wishing to contribute to the publication are directed to the 'Advice to contributors' at the back of this issue.*
